

STUDENT WORKER PROGRAM

COUNTY OF
LOS ANGELES

The Student Worker Program is designed to provide participants with on-the-job training and experience while encouraging the participants to obtain their educational degree or professional certification.

The primary purpose of this program is to provide meaningful work experience to serious students, to develop a strong work ethic and an understanding of business practices to help them prepare for full-time professional work and to assist them in obtaining a degree of certification. In addition, it is expected that serious students develop and maintain a deliberate plan to achieve measurable academic progress in the pursuit of a degree in a declared field.

Upon completion of the education, student workers and student professional workers are encouraged to apply for positions with the County of Los Angeles to become permanent County employees.
