Requires minimal supervision on projects. Ability to apply public health theory in program planning, evaluation, and material development. Ability to work with diverse stakeholders. Strong writing skills. Strong communication skills. ability to manage data, ability to interpret results, ability to summarize evaluation findings to summary reports. Pays attention to detail. Able to conduct full review. Ability to apply core public health theories for program planning and evaluation purposes. Ability to use theory to guide development of social marketing/health education materials.	Public Health 3530 Wilshire Blvd, Suite 800, Los Angeles, CA 90010
1114	Area Agency on Aging (AAA) Newsletter	To gain experience through the Los Angeles County AAA by participating in the development, release, and implementation of the first and subsequent AAA Newsletter(s). The purpose of the newsletter is to provide information on AAA services and to highlight some of the programs and their successes. More importantly, the newsletter will allow the AAA to share information with community partners that provide essential services for older adults and adults with disabilities in Los Angeles County. <p>Area Agencies on Aging (AAA) were established through the Older Americans Act (OAA) of 1965 to help older adults find employment, live as independently as possible in the community, promote healthy aging and community involvement, and assist family members in their vital roles as caregivers. The Los Angeles County AAA is a State-designated agency established in 1975 and is responsible for planning, coordinating, and implementing programs that promote the health, dignity, and well-being of Los Angeles County's residents. The Los Angeles County AAA is under the umbrella of the CSS Department and is part of the Aging and Adult Services Branch. The AAA and a network of public and private community-based agencies provide a broad range of services to older adults.</p>	Students must have classes or major in Public Administration, Public Policy, Communications, English, Gerontology, Sociology, or other related fields.	Interns must have the ability to review information on specific forms and reports and make recommendations on the completeness and accuracy of these. Experience in Microsoft Office Software is desired. Good writing skills. Intern with ability to determine useful community resources and opportunities that support the project(s) is a plus.	Workforce Development, Aging and Community Services 3333 Wilshire Boulevard, Suite 400, Los Angeles, CA 90010
1116	Premature Delivery Rate among African American in LAC	The statement of work, or action plan is developed and written by the intern, since the internship is self-directed and when the intern is passionate about a topic, the outcomes are better. Among activities of responsibility for are: <ol style="list-style-type: none"> 1. Literature review 2. Review LAC data available on the topic 3. Research on best practices conducted on the topic by other organizations, counties, state 3. Assist in developing a public health intervention- intern to decide: patient information, website content, partner communication 4. Abstract to be written and submitted for presentation to a professional organization, highlighting the findings. 	Student must be currently enrolled in a quarter/semester partnered colleges/universities.	Must have the ability to think, understand and act on information obtained in a way that is both effective and responsible. Ability to exchange information both orally and written in a clear and precise way. Must have a basic understanding of research analysis.	Public Health 695 Vermont Ave, Los Angeles, CA 90005, 14th floor and in the field as necessary.
1117	Cardiovascular and School Health Intern	Conduct and/or support assessment activities to inform program planning, implementation, and strategy development related to joint/shared-use and/or physical education in Los Angeles County. Assessment activities include, but are not limited to, literature review; development of research tools, instruments, and program support materials; data collection using methods such as key informant interview, focus group, street/school-based intercept surveys, or other; entry, management, and analysis of qualitative and quantitative data; development of products to communicate results to both internal and external audiences (e.g. stakeholder presentations, issue briefs, abstracts, social media campaign, or other).	Graduate student (Masters in Public Health or Public Policy preferred)	strong writing and statistical analysis capabilities; knowledge of data collection methods; experience with program evaluation, data collection and analysis; proficient in Microsoft Office suite and statistical analysis software; excellent verbal and written communication skills.	Public Health 3530 Wilshire Blvd, Suite 800, Los Angeles, CA 90010
1119	Violent Death Reporting System Data Abstraction	The intern will be working on the Violent Death Reporting System (VDRS). VDRS is designed to collect information from multiple sources to gain a complete picture of violent deaths (homicides, suicides, etc.) in Los Angeles County. The intern's work will include reading coroner's case reports of violent deaths and abstracting information from those reports for entry into the VDRS database. This is not a straightforward data entry job; the coroner's narrative must be carefully read and interpreted to ensure the correct circumstances surrounding each death are entered into the system. The intern will also participate in VDRS data abstraction meetings to discuss data entry procedures and to talk through difficult cases. Depending on the intern's interests, there is also the potential for developing research projects using VDRS data.	Intern should be majoring in a social science such as public health, criminology, sociology, psychology, etc.	Intern must be reliable and detail-oriented and be willing to read coroner's reports of violent deaths. Previous data entry experience and interest in violence prevention and/or mental health is preferred.	Public Health 695 S Vermont, Los Angeles, CA 90005
1121	Violent Death Reporting System Data Abstraction	The intern will be working on the Violent Death Reporting System (VDRS). VDRS is designed to collect information from multiple sources to gain a complete picture of violent deaths (homicides, suicides, etc.) in Los Angeles County. The intern's duties will include reading coroner's case reports of violent deaths and abstracting information from those reports for entry into the VDRS database. This is not a straightforward data entry job; the coroner's narrative must be carefully read and interpreted to ensure the correct circumstances surrounding each death are entered into the system. The intern will also participate in VDRS data abstraction meetings to discuss data entry procedures and to talk through difficult cases. Depending on the intern's interests, there is also the potential for developing research projects using VDRS data.	Intern should be majoring in a social science such as public health, criminology, sociology, psychology, etc.	Intern must be reliable and detail-oriented and be willing to read coroner's reports of violent deaths. Previous data entry experience and interest in violence prevention and/or mental health is preferred.	Public Health 695 S Vermont, Los Angeles, CA 90005
1124	Trauma Prevention Initiative – Violence Prevention Community Engagement and Research/Evaluation	The intern will be working on the Countywide Trauma Prevention Initiative. The Los Angeles County Department of Public Health (DPH), under the auspices of the Trauma Prevention Initiative (TPI), seeks to reduce the disproportionately high incidence of trauma visits, injuries and deaths in communities of interest throughout the county, prioritizing the high incidence of violence-related trauma visits, injuries and deaths in South LA. DPH intends to achieve this aim, in part, by working with community agencies to increase access to targeted services and strengthening linkages between community members, community resources and clinical services through hospital based violence intervention, community based intervention/life passages, and building capacity within the communities to address violence using a public health approach. The intern will be a critical support staff to the Initiative's Coordinator and should be an individual who is detail-oriented with strong communication and administrative skills. Duties include, but are not restricted to: <ul style="list-style-type: none"> • Work directly with the Initiative's Coordinator and Lead Educator to advance the many identified strategies and efforts of the initiative. • Attend community meetings to learn about the program, interface with stakeholders, take meeting minutes and assist with coordinating efforts of different stakeholders as it pertains to violence prevention. • Participate in strategic planning meetings, assist in preparing meeting materials and presentations, and take meeting minutes. • When possible, attend evening and weekend community events in the communities of interest, assisting with research and evaluation as well as program development and implementation. • Assist Coordinator/Evaluator with TPI research projects, including working with trauma centers and community partners to plan and conduct research and working with TPI staff and partners to develop and evaluate projects. • Assist Evaluation lead with collection and analysis of initiative data. • Assist with literature reviews, identification of best practices and writing evaluation reports. • Depending on the intern's interests, there is also the potential for developing research projects associated with violence prevention and intervention. 	Intern should be majoring in a social science such as public health, sociology, psychology, etc.	Intern must be reliable and detail-oriented and be willing to work within South Los Angeles communities including the communities of Westmont/West Athens and Willowbrook. Previous community related experience and interest in violence prevention/intervention and/or mental health is preferred.	Public Health Office location: 695 S Vermont, Los Angeles, CA 90005 Community Locations: Within various neighborhoods in South Los Angeles.
1127	Assistant Project Coordinator Intern-GRAD	The TB Program Education and Evaluation Unit, seeks an Assistant Project Coordinator intern to assist with planning and collaboration efforts. Duties for the intern may include one or more of the following: assisting in building a TB coalition, coordinating TB First Friday continuing medical education (CME) workshops/conferences, planning World TB Day, editing health education material, developing fact sheets and drafting annual education and training reports based on resulting data. More specifically, under the leadership of the Sr. Health Educator, the intern will help assist in planning and executing World TB Day 2017 and TB First Friday conferences and compiling data sources for TB Control Program reporting purposes.	Must currently be a student in a Master's degree accredited program of study with specialization in Public Health Education or Community Health Education.	Interested graduate students should possess: excellent written and oral communication skills; strong organizational ability; great attention to detail; skill to work both independently and in team settings; ability to conduct and implement research on evidence-based practices; and intermediate to advanced skills in Microsoft Office software applications (Word, Excel, PowerPoint, Publisher and Access). Ability to interpret quantitative statistical analysis and develop evaluation reports. At least one program planning, and at least one health behavior theory or communications course preferred.	Department of Public Health - Communicable Disease Control and Prevention Division - Tuberculosis Control Program 2615 S. Grand Ave, Los Angeles, CA 90007
1128	MCAH Research, Evaluation and Planning Internship	The County of Los Angeles Department of Public Health, Maternal, Child, and Adolescent Health Programs is seeking highly motivated student interns to provide support for various projects related to research, evaluation, planning and/or policy development. The purpose of the internship is for the intern(s) to gain exposure and experience in MCAH related issues. Depending on the student's interest and background, major assignments include but are not limited to: <ul style="list-style-type: none"> • Support the implementation of three survey projects; specific duties include reviewing the survey tools, conducting phone interviews, and tracking project progress. • Work with MCAH staff to develop health briefs or conduct further analyses on various MCAH issues. • Assist with MCAH research data dissemination to MCAH stakeholders and community partners. • Assist with MCAH program/project evaluation, and communicate findings for program/project improvement. • Assist with conducting focus groups to solicit feedback to inform project design and implementation; specific duties include outreach and recruitment of focus group participants, collecting and analyzing focus group feedback and making recommendations to project implementation. • Assist with conducting comprehensive literature review on MCAH related topics. • Assist MCAH staff in report generation and compilation. • Support MCAH Program staff in maintaining and designing MCAH Program website and MCAH Data Center; assist with periodic updates of Tracking Preconception and Interconception Health Indicators in LAC website data. Assist with MCAH staff in designing and developing health education and program materials incorporating evidence-based health literacy practices. • Depending on the intern's skill, experience and interest, the student intern will be encouraged to develop his/her own analysis topics and carry out the project independently with assistance from MCAH staff based on available data. 	College students interested in a career in public health or graduate students in public health related fields. Graduate or Doctorate	Preferred but not required: Experience conducting telephone interviews, knowledge of MS Access and SAS; Basic knowledge of epidemiology and research design. Critical Thinking Skills: Generating or assessing solutions; clarifying or critiquing health information and materials; generating program ideas for hard-to-reach populations. Oral and Written Communication Skills: Proficiency in oral and written communication skills. Spanish preferred but not required.	Los Angeles County Dept. Public Health- Maternal, Child & Adolescent Health Programs (MCAH) 600 South Commonwealth Ave., Suite 800, Los Angeles, CA 90005

Project #	Project Title	Project Description	Possible Major	Critical Skills	Location
1136	Los Angeles County Tobacco Retail License Development	Work with local jurisdictions to amend tobacco control policies to include e-cigarettes. Analyze existing tobacco retail license policies, update the LA County tobacco policies database, and provide technical assistance to members of the Tobacco Retail Environment Task Force.	MPH candidate	Experience working in diverse communities. Ability to multitask. Planning and coordination skills. Experience with project management. Comparative analysis of programmatic elements. Problem solving skills as it relates to program/project management. Strong written and oral speaking. Ability to draft and format reports and fact sheets.	Tobacco Control and Prevention Program Office 3530 Wilshire Blvd., Suite 800, LA CA 90010
1137	Healthy Trees for Los Angeles County	Interns may be assigned to but not limited to the following assignments which are associated with the Healthy Tree for Los Angeles County Project. Develop a framework for a public-private Urban Forestry Program for street and residential trees in unincorporated Los Angeles County to promote walkable environments, mitigate climate change, prevent heat illness, and reduce energy costs. Research Supervisorial District (SD) 2 serving organizations including South LA Youth Activities League, LA Neighborhood Land Trust, and local schools and develop recommendation list for SD 2. Develop a tree education program with local schools linked with local tree planting efforts. Develop annotated agendas and convene meetings with local organizations and schools to gauge interest in involving their youth in conducting tree education and outreach. Create systems and environmental change to facilitate tree planting/care and urban heat reduction in unincorporated areas of Los Angeles County. Study CAL FIRE reporting requirements, specifically regarding GHG tracking. Develop a training presentation and guide on CAL FIRE GHG reporting. Train DPW and DPH staff on the guide and reporting mechanism/fool. Identify other grant opportunities to support tree planting and maintenance; Research charitable foundations, private companies, non-traditional and technology driven techniques to raising funds (e.g., crowd sourcing)	Environmental Health coursework; Public health knowledge; Built environment knowledge. Graduate	Public health knowledge; Built environment knowledge.	Public Health PLACE Program, 695 S. Vermont Ave., 14th floor, Los Angeles, CA 90005
1139	Medical Affairs Intern	Agency Background: The Los Angeles County Department of Public Health's mission is to protect health, prevent disease, and to promote health and well-being. Projects in the Medical Affairs Program offer a variety of skills and opportunities to assist with creating and/or implementing educational materials (brochures, flyers), websites & graphics, translating, assist with creating and implementing waiting room videos, field testing, customer surveying, assist with webinars, etc. • Continuing Medical Education, which oversees the continuing training and education for physicians in the county. Educational topics include Zika, Measles, Pertussis, HIV/STD, Tuberculosis and many more. Educational formats include live activities, live webinars, and archived webinars. • Physician Credentialing & Outreach, which focuses on Los Angeles County Physician workforce development, including 1) recruitment and retention; 2) assessment and development; and 3) professional practice assurance. • Consumer Protection, which looks at the use of ineffective or unproven health products and services that can cause harm to consumers. Examples include: miracle weight loss products, programs or supplements claiming to cure or reverse diabetes or hypertension, and medical or surgical procedures performed by unlicensed providers.	Possible Major: Include, but not limited to Public Health. <i>Baccalaureate</i>	Must have strong organizational skills; possess the ability to effectively communicate and quickly grasp information. Basic computer skills are necessary. Interest in health education and/or consumer protection, and research is desirable. Bilingual is desired but not necessary.	Public Health 241 N. Figueroa St, Rm 275 Los Angeles, CA 90012
1140	Department of Medical Examiner-Coroner, Services Bureau-MSW Graduate Practicum	Graduate level interns will work under the supervision of the Department of Medical Examiner - Coroner's senior staff, within the Department's various areas of responsibility: Forensic Laboratories, Forensic Medicine, Investigations/Operations and Public Services. The Department of Medical Examiner-Coroner is mandated by law to inquire into and determine the circumstances, manner, and cause of all violent, sudden, or unusual deaths occurring within Los Angeles County, including of homicides, suicides, accidental deaths, and natural deaths where the decedent has not seen a physician within 20 days prior to death. Interns will receive an Informational and Safety Orientation on the first day of the course. They will be able to assist grieving families with referrals to other agencies for some medical or social service needs - including, but not limited to, possible burial or cremation assistance/resources. Interns may also provide assistance in locating counseling and application forms for crime victim's compensation. Also, they may provide sources of help, compassion and understanding for people who have lost a loved one. Interns will be involved in the following activities in above listed areas: Rotations through each section in small groups. Familiarization and observation by focusing on different aspects in each division, including but not limited to: Investigation/Operations: 1. Meet with Coroner's Investigators (Operations) staff and observe their work in the office. 2. Accompany investigations on field visits (observers, assess and report on behaviors and practices). 3. Spend time with Medical Examiner-Coroner's Investigators in the field dealing with the public (observers, assess and report on behaviors and practices - must be kept confidential). 4. Provide support if appropriate in crisis situations (e.g., in the field when dealing with family members, preventing family members to enter and contaminate a potential crime scene, assist with deescalating situations with family members in the home or bystanders on the street where a suspicious death has occurred). 5. Assist with notifications to legal next of kin/family members. 6. Participate in Department Seminars, Tours and Employee's Educational Trainings. 7. Assess, analyze and report on the stress levels of each position and report to Executive Management. (C) 8. Provide case management assistance, which may include providing updates to next of kin (NOK) or family members on case status, and assisting families in referrals for funeral arrangements. 9. Assist with challenging calls, providing support or resources when needed to the caller. 10. Forensic Laboratories: 1. Observe Criminalists in the laboratory environment. 2. Meet with the evidence section employees and observe their work. 3. Meet with Criminalists and Tool Mark section staff and observe. 4. Provide support if appropriate in crisis situations (e.g., in the field when dealing with family members, preventing family members to enter and contaminate a potential crime scene, assist with deescalating situations with family members in the home or bystanders on the street where a suspicious death has occurred). 5. Assess, analyze and report on the stress levels of each position and report to Executive Management. (C) 6. Public Services Division: 1. Observe criminalists in a courtroom environment if appropriate. 2. Public Services Division: 1. Meet with Property Section employees and observe their work. 2. Learn how the Department keeps records, including anything. 3. Learn how we deal with the public (observers, assess and report on behaviors and practices). 4. Improve in crisis situations, may include assisting grieving loved ones. 5. Assess, analyze and report on the stress levels of each position and report to Executive Management. (C)	Must have own transportation. Students must be aware of the nature of the Department of Medical Examiner - Coroner's work. Must understand the stages of grief and have good problem solving skills. Clear understanding of cognitive behavioral therapy, and understanding of teaching pro-social skills. Strong oral and written communication skills.	Los Angeles County, Department of Medical Examiner-Coroner Various settings throughout Department of Medical Examiner-Coroner, Los Angeles County	
1141	WDACS Staff Development Intern	An intern is needed to assist WDACS with the planning, implementation, delivery and evaluation of department-wide training programs and curricula. Tasks Include: Assist in developing training needs questionnaires utilizing assessment instruments such as, Survey Monkey and other internet resources, information gathered from management, audit reports, and departmental training files. Assist in distributing questionnaires to target population groups via email; collecting and analyzing online survey responses to identify proficiency and training needs. Assist in creating training curricula, lesson plans, presentation handouts and similar in-class materials, and procurement of audio-visual equipment and venue. Assist in evaluating County and/or vendor training curricula and materials as well as observing in-class presentations in order to make recommendations for required adjustments to training programs according to Departmental needs on a range of subjects, such as Sexual Harassment Prevention, County Policy on Equity, Performance Evaluations, and Customer Service. Assist in managing skill-based and mandated training programs by researching educational institutions and other sources for course information and availability. Assist in scheduling of employee training sessions by utilizing the Countywide Learning Management System in accordance with established County policy and procedures. Assist in conducting classroom presentations on a wide range of mandated and skill-based training to departmental employees including management as well as the community at large in accordance with established curriculum.	Behavioral or Social Sciences majors.	Must possess advanced working knowledge of Microsoft Word, Excel, PowerPoint and/or Mac Key Note. Excellent customer service and interpersonal skills, excellent oral articulation and presentation skills, and advanced written communication skills.	Workforce Development, Aging and Community Services (WDACS) 3175 W. Sixth St., Room 404 Los Angeles, CA 90020
1145	Parks After Dark (PAD) Strategy- Evaluation, community engagement, program development.	Parks After Dark (PAD) keeps county parks open during summer weekend evenings in disadvantaged communities with high rates of crime and obesity. PAD take place at 21 parks throughout the County and is led by the County Department of Parks and Recreation (Parks) and is a collaborative effort that includes the Sheriff's Department, Public Health (DPH), Probation Department, Office of Child Protection, and many other county and community agencies. The intern will work closely with DPH's PAD lead in the Injury & Violence Prevention Program, and assist with evaluation activities, and developing and coordinating innovative health and social service programming at the parks. The intern should have experience with qualitative and quantitative research methods and fieldwork, and/or community engagement and program development. Duties include, but are not restricted to: Work directly with the Initiative's Coordinator and Lead Evaluator to advance the many identified strategies and efforts of the Initiative. Attend PAD planning meetings both at county offices during business hours, and in the community during evenings and weekends, to learn about the program, interface with stakeholders, take meeting minutes and deliver presentations as needed. Attend PAD events (if assigned during the summer) at parks throughout the county, on weekend evenings, to observe programs, coordinate data collection activities, and assist with programming. Assist project lead and evaluator with collection and analysis of project evaluation data, writing evaluation reports, and developing presentations and materials. Assist project lead with teen club research projects, using Community Based Participatory Research methods, including working with youth to plan and conduct research, and develop projects. Assist with researching literature regarding similar programs, to identify best practices.	Intern should be a <u>graduate-level student</u> majoring in a social science such as public health, sociology, psychology, etc. Intern must be reliable and detail-oriented and be willing to work within communities with high rates of economic hardship and violence. While Parks After Dark is safe, and law enforcement are present, applicants must be comfortable working in parks in high crime communities during the evening. Parks After Dark provides opportunities for a wide range of experience, education, and skills. These include health education, community engagement, working with different kinds of stakeholders including youth and adult community members, community organizations, and government agencies, conducting quantitative and qualitative research, and developing reports and presentations. Knowledge of and interest in community engagement, public health, violence prevention and/or social determinants of health is preferred. Applicants must be organized and detail oriented.	Analyzing different types of data, including survey data, health data, and crime data, interview and focus group data, and summarizing data for different audiences. Prioritizing work among a wide variety of responsibilities and tasks. Ability to diplomatically and professionally engage community members and county department and community based organization staff, and reconcile disparate points of view. Experience developing or implementing surveys, working with community members to conduct research, statistical analyses, GIS mapping, theming qualitative data, or data entry. Experience using software like Microsoft Excel, Access, PowerPoint, and ArcMap.	Department of Public Health Office location: 695 S Vermont, Los Angeles, CA 90005 Community Locations: Within various neighborhoods throughout Los Angeles County.
1146	Healthy Food Procurement Internship	The Los Angeles County Department of Public Health Healthy Food Procurement Unit partners key stakeholders to support improvements in the nutritional quality of food and beverages offered in a range of institutions (e.g., hospitals, universities, congregant meal programs). Support services that the Healthy Food Procurement Unit offers include: Conducting food and beverage environmental assessments; Developing food nutrition standards and procurement policies; Aligning recipes with nutrition standards; Providing education to staff, patients, and visitors; Implementing reduction strategies for specific nutrients of concern, such as sodium. Interns may be assigned to but not limited to the following activities within the Division of Chronic Disease and Injury Prevention Unit: Assist in the development of County-wide pre-approved process for regional food service operators; Assist in the development and evaluation of sodium reduction education brief for patrons around sodium reduction; Assist in the drafting of nutrition standards that meet or exceed existing program standards; Assist the Division of Chronic Disease & Injury Prevention (DCDIP) Research and Evaluation Unit with the evaluation of select public/private hospital institutions, distributive and congregate senior meal programs, and/or universities targeted by DCDIP to implement healthy food procurement changes; Assist DCDIP Research and Evaluation Unit to validate internally-developed healthy food procurement tools.	Be in the process of receiving Master in Public Health (MPH) degree and have taken public health courses focused on: • research and evaluation methodology • health program planning • health theory • social marketing • health education and health promotion	• Self-starter • Requires minimal supervision on projects • Ability to apply public health theory in program planning, evaluation, and material development	Public Health 3530 Wilshire Blvd, 8 th Floor, Los Angeles, CA, 90010
1149	Community and Senior Centers, Needs Assessment	To gain experience through the County of Los Angeles, Workforce Development, Aging and Community Services, (WDACS), Community and Senior Centers Division by participating in the development of a needs assessment for one of 14 Centers dependent on interns proximity to the nearest Center. The Los Angeles County WDACS/Community and Senior Centers has sites throughout the County. Each center is unique and reflects the multi-ethnic communities served. The centers provide both direct services to community residents, a broad range of services to older adults and function as "brokers of human services" for the numerous community-based and governmental organizations that operate from the centers. A multi-faceted needs assessment must be conducted for each Center in the County of Los Angeles under the purview of WDACS in order to ensure that they continue to provide relevant community services. This needs assessment will answer the "who, what, why and where" around which services will be continue to be offered or identify the need to establish new services. The central areas of interest should include, but are not limited to identifying: a) target populations b) the types and extent of existing and potential needs of local residents including older adults in LA County c) barriers and challenges experienced by local residents and older adults in accessing services in LA County d) the services and resources existing within the local area surrounding the Center that are available for addressing those needs e) identify priority of services Tasks and duties may include: Research information by identifying, locating and extracting relevant data and information (e.g., by reading, collecting, downloading, interviewing) from varied sources (e.g., internet search engines, library materials), government and technical reports, knowledgeable individuals in order to obtain sufficient, valid, and reliable data for analysis and decision making purposes. Compile information by grouping and/or categorizing the information (e.g., in tables, spreadsheets, data files) in meaningful ways in order to facilitate analysis. Analyze information using qualitative and/or quantitative analytical methods in order to understand and draw fact-based conclusions, often from large amounts of information. Identify issues and problems requiring additional research and study and take appropriate action to ensure sound study results. Develops and/or recommends the development of policies, programs, or procedures to address problems or improve operations by applying the results of research and analysis of pertinent information in order to ensure the highest likelihood of success. Prepares a variety of documents (e.g., reports, business correspondence, memoranda), adopting formats suitable to the purpose and using relevant software programs (e.g., word processing, desktop publishing, presentation) in order to effectively communicate information to various audiences (e.g., departmental personnel, members of the public, governing boards). Interacts with a variety of individuals (e.g., vendors, managers, representatives of external agencies/organizations) when participating in meetings, making presentations, providing advice and/or consultation services, etc., in order to communicate information, share ideas, present recommendations, gain agreement, and coordinate activities. Monitor progress by gathering and analyzing relevant information in order to ensure that programs are proceeding as intended. Evaluates program effectiveness by comparing outcomes to goals in order to determine whether to continue or modify the program. Performs various administrative duties (e.g., creating and maintaining files, formatting standard documents, reviewing, processing, and routing documents) by appropriately applying federal and State laws, County and local ordinances, and departmental policies and procedures in order to ensure all work done complies with established guidelines and requirements.	Students must have classes or major in Public Administration, Gerontology, Sociology, or other related Social Sciences.	Intern must have the ability to review information on specific forms and reports and make recommendations on the completeness and accuracy of these. Experience in Microsoft Office Software is desired. Good writing skills and public speaking skills. Interns with ability to determine useful community resources and opportunities that support the project(s) is a plus.	Workforce Development, Aging and Community Services (WDACS) Any one of the fourteen Centers under purview of WDACS
1150	Step by Step Los Angeles County - Pedestrian	The student will be working with the Division of Chronic Disease and Injury Violence Prevention (DCDIP) PLACE Program (Policies for Usable, Active Communities and Environments). The PLACE Program is dedicated to fostering policy change that supports the development of healthy, safe and active environments for all Los Angeles County Residents. Step by Step is a pedestrian plan to help four unincorporated communities in Los Angeles County (Lake LA, Walnut Park, Westmont/West Athens, and West Whittier-Los Nietos) get more people walking, make walking safer and support healthy lifestyles. A pedestrian plan provides guidance in developing a network of sidewalks, off-street paths, trails and facilities (such as lighting, crosswalks, and benches). Duties will include: Develop a program plan for conducting pedestrian infrastructure demonstration projects in unincorporated Los Angeles County to promote walkable environments, solicit community input on preferred infrastructure recommendations included in the pedestrian plans, and build understanding of how different types of roadway improvements improve roadway safety; Research and assist in developing community engagement plans for pedestrian infrastructure demonstration projects; Develop annotated agendas and convene meetings with local organizations, businesses and schools to build awareness of and encourage participation in pedestrian infrastructure demonstration projects; Create systems and environmental change to facilitate the use of demonstration projects as part of infrastructure outreach in unincorporated areas of Los Angeles County; Study evaluation methods utilized by other jurisdictions for demonstration projects; Develop recommendations and sample evaluation materials for use by DPH staff during field demonstration projects; Train DPH staff sub-consultants and DPH staff on evaluation tools; Research charitable foundations, private companies, non-traditional and technology driven techniques to raising funds (e.g., crowd sourcing) to support future demonstration projects and community engagement in infrastructure planning.	Must currently be a graduate student	Public health knowledge; Built environment knowledge; Program and project evaluation knowledge	Public Health PLACE Program , 695 S. Vermont Ave., 14th floor Los Angeles, CA 90005 12830 Columbia Way, Education Center West Downey, CA 90242

Project #	Project Title	Project Description	Possible Major	Critical Skills	Location
1153	Community Health Education & Health Promotion Service Planning Area's (SPA's) 3&4	Duties include directly assisting with: assessing public health education needs; planning, implementing, and evaluating public health education interventions and activities; assessing, developing, and testing health-related materials and messages; conducting community outreach; and linking internal and external stakeholders with health education consultation services. The Health Education Intern is placed within the Health Education Unit of Service Planning Area's (SPA) 3&4.	Must currently be a student in an accredited program of study with specialization in Public Health Education, Community Health Education, or equivalent. Interested students should: possess excellent organization, written and oral communication skills; exhibit dedication and great attention to detail; effectively in team settings, be able to conduct research on evidence-based practices, and be knowledgeable of Microsoft Office software applications.	Generating or assessing solutions; clarifying or critiquing health education information and materials; generating program ideas for hard-to-reach populations. Excellent oral and written communication skills. Other languages preferred but not required. Knowledge of biostatistics and research design methods.	Public Health SPA 3 Pomona Health Center 750 S. Park Avenue Pomona, CA 91766 Monrovia Health Center 330 W. Maple Avenue Monrovia, CA 91016 SPA 4 Hollywood Wilshire Health Center 5205 Melrose Avenue Hollywood, CA 90038 or Central Health Center 241 N. Figueroa Street Los Angeles, CA 90012
1161	Assistant Project Coordinator-GRAD	The Training and Organizational Development (T/O) Unit within Human Resources, seeks an Assistant Project Coordinator Intern to assist with planning, project management. The duties may include one or more of the following: assisting in orientating and reorienting members of the "Technical Support Community (TSC)" - numerous training stakeholders at the DHS medical centers and health centers, developing marketing strategies and tools, coordinating special events, developing, revising, and editing staff education materials, and assisting with drafting annual education and training reports based on resulting data. The T/O Unit of the Department of Health Services (DHS) is an administrative office that oversees compliance to training for the 20,000 plus workforce members within DHS. DHS is the largest of the 37 County Departments. The Unit collaborates with the TSC to schedule and manage mandatory training including Sexual Harassment Prevention, County Policy of Equity, Diversity, Legal Exposure Reduction, Americans with Disabilities Act, Employment Discrimination Prevention, and other such offerings. The Unit generates biweekly compliance reports that reflect compliance to these trainings and disseminates it to HR Managers. T/OO also manages the Learning Net (LNET), the County's learning management system, and assists with troubleshooting system or other issues for the DHS workforce in concert with the Help Desk. Finally, T/OO has expertise in converting instructor-led training into electronic or web-based training, video production, and editing.	Must currently be a student in a Master's degree accredited program of study with specialization in Organizational Psychology, Learning Development, Marketing, Business Administration, Public Administration, or Health Education/Community Health Education. Interested graduate students should possess: excellent project management tools and strategies, written and oral communication skills; strong organizational ability; great attention to detail; skill to work both independently and in team settings; building evaluation tools, and analyzing data. Business administration, project management, education, communication/technical writing/information design, marketing, advertising, database development, statistics/measurement, research methods, Adobe Illustrator, Microsoft Office Suite (Access, PowerPoint, Word, and Excel). Experience with Captivate or GoAnimate software is also desirable.	Ability to interpret quantitative statistical analysis and develop evaluation reports. Project Management and Facilitation skills are highly desirable. The ideal candidate will possess strong • analytical and problem-solving skills with the ability to quickly grasp new information, act upon it, and present a workable solution or finished deliverable • Proficient writing and analytical skills are highly desired. • Research experience and public speaking skills also desired.	Department of Health Services Training and Organizational Development 5555 Ferguson Drive Commerce, CA 90022
1164	Communications & Program Evaluation Intern	The Los Angeles County Women & Girls Initiative (WGI) is looking for well-qualified interns who are passionate about women's equity, and have experience around communications, qualitative research, and developing policy recommendations. Below are several potential projects that an intern could take the lead on: 1) Climate Survey Follow-Up: The WGI helped design and conduct a survey of all county employees which asked questions about workplace satisfaction, and how well county policies were serving employees. We will be pursuing follow up, potentially through another survey or direct outreach to department representatives. We are especially interested to learn more about: 2)Mentorship Programs: The WGI seeks to collect information about mentorship programs that currently exist for county employees, how they are serving employee needs, and the potential for improved programs. 3)Understanding Existing Training Opportunities: The county currently provides a number of trainings designed to benefit employees. Our aim is to create an inventory of these training, who they are available to, and assess what changes the county could make to better serve its employee population. 4)Examine and Make Recommendations to Childcare Policies: The WGI has collaborated with other departments to host focus groups for county employees to give insight about their experiences with finding childcare. We are interested in continuing these groups, and deepening our understanding of the issues parents face, particularly around family leave and employees working nontraditional hours.	Possible Major: Public Administration, Public Policy, Communications, Urban Planning, Sociology, other related degrees. (All accepted graduate students preferred, although undergraduate students will be considered)	• Experience in Microsoft Office software is required. • Proficient writing and analytical skills are highly desired. • Research experience and public speaking skills also desired.	Chief Executive Office Kenneth Hahn Hall of Administration 222 S. Hill Street 5th floor Los Angeles, CA 90012
1165	Research & Community Engagement Intern	The Los Angeles County Women & Girls Initiative (WGI) is looking for a well-qualified intern who is passionate about women's equity, and has experience around community engagement, qualitative research, and developing policy recommendations. Below are examples of potential projects that an intern could contribute to: 1) Climate Survey Follow-Up: The WGI helped design and conduct a survey of all county employees which asked questions about workplace satisfaction, and how well county policies were serving employees. We will be pursuing follow up, through further surveys or direct outreach to department representatives. We are especially interested to learn more about: • Mentorship Programs: The WGI has developed a survey about mentorship programs that currently exist for county employees, how they are serving employee needs, and the potential for improved programs. We have just disseminated the survey and will need to encourage participation and then analyze survey results and develop next steps. • Understanding Existing Training Opportunities: The county currently provides a number of trainings designed to benefit employees. Our aim is to create an inventory of these training, who they are available to, and assess what changes the county could make to better serve its employee population. 2) COVID-19 Town Hall Facilitation and Follow-Up: The WGI is planning to host virtual events (town halls, listening sessions, etc.) during the Fall to hear more about how the County could better serve women and girls. 3) Criminalization and Incarceration of Girls in LA County: The WGI is partnering with several other groups to address how girls, particularly girls of color, are disproportionately criminalized and pushed into the juvenile justice system. Interns can help with data finding and research, as well as overall development of policy recommendations.	Possible Major: Public Administration, Public Policy, Communications, Urban Planning, Sociology, other related degrees	Organization, Qualitative interviewing, Research, Policy Analysis	Chief Executive Office Kenneth Hahn Hall of Administration 222 S. Hill Street 5th floor Los Angeles, CA 90012
1166	Substance Abuse Disorders Treatment Training	Antelope Valley Rehabilitation Centers (AVRC) is a Los Angeles County residential treatment facility for adults struggling with addiction including individuals with both addiction and mental health disorders. AVRC is an ideal training site for substance abuse counselor trainees to acquire supervised hours towards certification. We also offer internship training for students in the healing arts (social workers, marriage & family therapists, and psychologists).	Need to be a registered substance abuse counselor who is wanting to collect supervised hours towards their certification (BA degree not mandatory) or have at least a MA in the healing arts and a 600-hour collect hours towards licensure for a licensed practitioner of the healing arts (LPHA). Required education level is not applicable unless they are working towards licensure as a LPHA. Trainees in the Substance Abuse field need to be registered with one of the National Commission for Certifying Agencies accredited organizations recognized by the Department of Health Care Services.	The ideal participants should be versed in software and tools that include, but not limited to: • Xaminin • C Sharp • .NET • Business Process Automation (BPM) or workflow solutions	Dept. of Public Health Substance Abuse Prevention & Control, Antelope Valley Rehabilitation Centers 35500 Araratte Canyon Road, Acton CA 93510
1171	System Registration Process	The Probation Department currently manages access to over 60 criminal justice internal and external applications. Timely access to criminal justice systems is fundamental to a Probation Officer's function and many times plays a critical role in ensuring public safety. The current process for an employee to request and get approved for access to criminal justice systems uses a web based tool to complete forms that are printed and signed. The forms are then delivered manually up the chain of command for review and approval. Once approved, the forms are delivered to the Systems Registration Unit for processing. Create an automated workflow system with electronic approval capabilities to facilitate system access requests. User will access the system either via the desktop and/or mobile devices (e.g., smartphone or tablet) to submit system access request. Request shall be routed to appropriate supervisors and managers for approval. All access requests shall be tracked in a database allowing users to check the status of their requests and send reminders to approvers as needed. Reports shall be available to track all user access granted. Students working on this project will: Develop project scope and strategy resulting in a project charter Complete requirements gathering Develop business process modeling Complete system architecture design Complete coding Complete testing Complete technology transfer to include requirements for system maintenance and support	Fields related to Engineering, Computer Sciences or Information Technology		Probation Department Headquarters 9150 Imperial Highway Downey, CA 90242
1180	APS Mobile	APS Mobile will extend the investigation module of the WDACS Adult Protective Services (APS) case management system. This project calls for native mobile development to empower field workers with a set of tools and resources to protect abuse victims and help save lives. WDACS will provide design specifications, computing infrastructure and technical support. The students will have some design input and will provide mobile application development.	Fields related to Engineering, Computer Sciences or Information Technology	Phone/iOS, x-code (swift), php	Workforce Development, Aging and Community Services 3175 W. 6th St., Los Angeles, CA 90020
1181	Patient Tracking	Patient Tracking is a component of the BIOLOH Project (Blinking Our Loved Ones Home). This is a service to dementia patients who wander from home and often become disoriented and lost. This initiative will involve the research, selection and testing of wireless tracking devices, culminating in a recommendation to WDACS. Additionally, there will be backend application development to capture data from the devices in near real time and present information to a dashboard. WDACS will provide scope guidance, computing infrastructure, technical support and devices. The students will provide evaluation results, design analysis, integration and software development.	Fields related to Engineering, Computer Sciences or Information Technology	cellular tracking devices, python, php	Workforce Development, Aging and Community Services 3175 W. 6th St., Los Angeles, CA 90021
1186	Food Insecurity Unit Internship	The student will be working with Los Angeles County Department of Public Health Division of Chronic Disease and Injury Violence Prevention Food Insecurity Unit. The Food Insecurity Unit partners key stakeholders to screen and refer food insecure households to services such as CalFresh and food pantries. Support services that the Food Insecurity Unit offers is: Conducting environmental assessments of food insecurity screening and referral processes, managing and analyzing food insecurity screening tools, interns may be assigned to but not limited to the following assignments which are associated with the Division of Chronic Disease Food Insecurity Unit: Assist in the data entry and data management of completed food insecurity screeners; Assist in the development and evaluation of food insecurity referral systems; Assist the Division of Chronic Disease & Injury Prevention (DCDIP) Research and Evaluation Unit with the evaluation of select public/private clinic institutions targeted by DCDIP to implement food insecurity screening and referral. Assist DCDIP Research and Evaluation Unit to observe the implementation and execution of food insecurity screening and referral at select public/private clinic institutions.	Be in the process of receiving an undergraduate degree	Self-starter Requires minimal supervision on projects	Public Health 3530 Wilshire Blvd. Suite 800, Los Angeles, CA 90010
1187	Employee Relations Internship	The program is designed to give participants meaningful experience in the area of public sector labor/management relations. Participants will gain familiarity with Department and County policies, as well as State and federal laws governing labor/management relations in the public sector. This will be accomplished by attending monthly meetings of the Los Angeles County Employee Relations Commission (RCCOM) and by facilitating Department compliance with its various collective bargaining agreements.	College level senior majoring in Labor Studies, Public Administration, or related field, with approval of the instructor of record at the university.	Prospective interns will be required to successfully pass a security clearance background check prior to the start of the internship.	Sheriff's Department Bureau of Labor Relations & Compliance Hall of Justice - 5th floor 210 W. Temple Street Los Angeles, CA 90012
1190	Community Oral Health Improvement Plan and Grants	The Oral Health Program, in conjunction with community partners, developed an Oral Health Strategic Plan for Los Angeles County titled the Community Oral Health Improvement Plan (COHIP). The plan outlined a 5-year strategic plan to address the oral health priorities of our residents. This strategic plan will define the vision and mission, as well as the goals and objectives, to address these oral health priorities. The COHIP's vision is a community where oral health is recognized as essential for overall health and well-being, and everyone has the opportunity to achieve it. There are six objectives that will align with the California Oral Health Plan. There will be six workgroups representing each objective and will be comprised of diverse stakeholders, including community and non-profit leaders, dental professionals, public health experts, private sector participants, residents and OHP staff. If you are interested in interning/volunteering with us, you will be a part of the workgroups and will attend the workgroup meetings, report on the meetings and aid in the report on the COHIP implementation and outcomes. As a recipient of Proposition 56, the Oral Health Program is required to develop an Evaluation Plan to ensure that the program is meeting the grant objectives and all its requirements. The Evaluation Plan will evaluate the program's activities and outcome depicted at the five-year Scope of Work (SOW) plan. Depending on when you come work with us, the Oral Health Program may have completed the first Evaluation Plan. You will use this as a template for the development of a COHIP Evaluation Plan, which will focus on an evaluation of the implementation of the COHIP objectives, activities, and outcomes. You will also become familiar with the Los Angeles County Oral Health Logic Model, SOW objectives and biannual progress reports. You will also be aiding in any activities that OHP needs at the time you come including writing and working with various grants.
